

SAFE SCHOOL ZONE

Walk, Cycle, Scoot or Park and Stride to School

- If you live inside the dark green zone, you could walk to and from school every day. Even if you need the car for work, it may be easier to leave it parked while you do the school run.
- If you live just outside the zone, it is probably still faster to walk.
- If you have to travel by car to school, please try to park outside the walking zone, with care and consideration for local residents and walk the rest of the way.
